

EXPOSED-FASTENER ROOFING & SIDING PANEL

Max Life / AG Panel

A versatile 3' panel profile built for residential, agricultural, and light-commercial work where fast coverage, clean lines, and broad trim support matter.

Coverage 36 in. (3 ft)	Max length 44 ft	Rib spacing 9 in. O.C.	Gauge 29GA	Finish option Acrylic Coated Galvalume
----------------------------------	----------------------------	----------------------------------	----------------------	--------------------------------------------------

Core Specifications

Panel type	Exposed-fastener steel roof and wall panel
Coverage	3 ft wide
Length	44 ft maximum on current catalog page
Rib spacing	9 in. on center
Color family	Standard 29GA stock colors + Acrylicume option
Documents	Installation guide/trim drawings available online

Recommended For

- Residential roofing
- Pole barns & utility buildings
- Soffit / fascia-compatible details

Specifier Notes

- Use where efficient 3' coverage and familiar field installation are priorities.
- Pairs with a broad trim package for eaves, ridges, valleys, transitions, corners, and soffit/fascia details.
- Confirm project-specific length limits and substrate requirements at time of quote.

Standard 29GA Stock Colors

Light Stone	Barn Red	Crimson
White	Terra Cotta Red	Copper Penny
Brown	Burnished Slate	Black
Forest Green	Ash Gray	Charcoal
Sky Blue	Clay	

Also available in Acrylic Coated Galvalume (Acrylicume). Color appearance may vary by screen and production batch.

Planning note: these sheets are intended as fast reference pages. Use the linked WV Metal installation guides, trim details, and current color chart during estimating, ordering, and final field coordination.
